

“As never before, clinicians can practice medicine anywhere, at anytime; with instant access to the information and systems they need—right at their thumbs with MobileReflex”

Mobilizing Healthcare Data with MobileReflex by Karya

For healthcare companies, delivering better patient care, more efficient treatments and higher quality services, requires access to enormous amounts of patient data held in disparate locations.

Today Technology companies like yours have made it possible for Health Care Professionals to take advantage of the cutting edge technology.

Karya Technologies empowers HealthCare Technology Companies with the tools & information that enables the business to be more competitive.

Understanding the need of your Industry, Karya has built a robust and scalable framework (MobileReflex) which can seamlessly integrate all your software solutions onto one single Smartphone.

Some of the features of MobileReflex are:

- Smart phone integration
- Offline Storage and functionality
- Meta data storage and configuration
- Report Configuration and Scheduling
- Transaction Manager

Extending your existing software solution to the mobile devices using MobileReflex helps you retain customers and prove your new standard of efficiency and care in the world of mobility and remote surveillance.

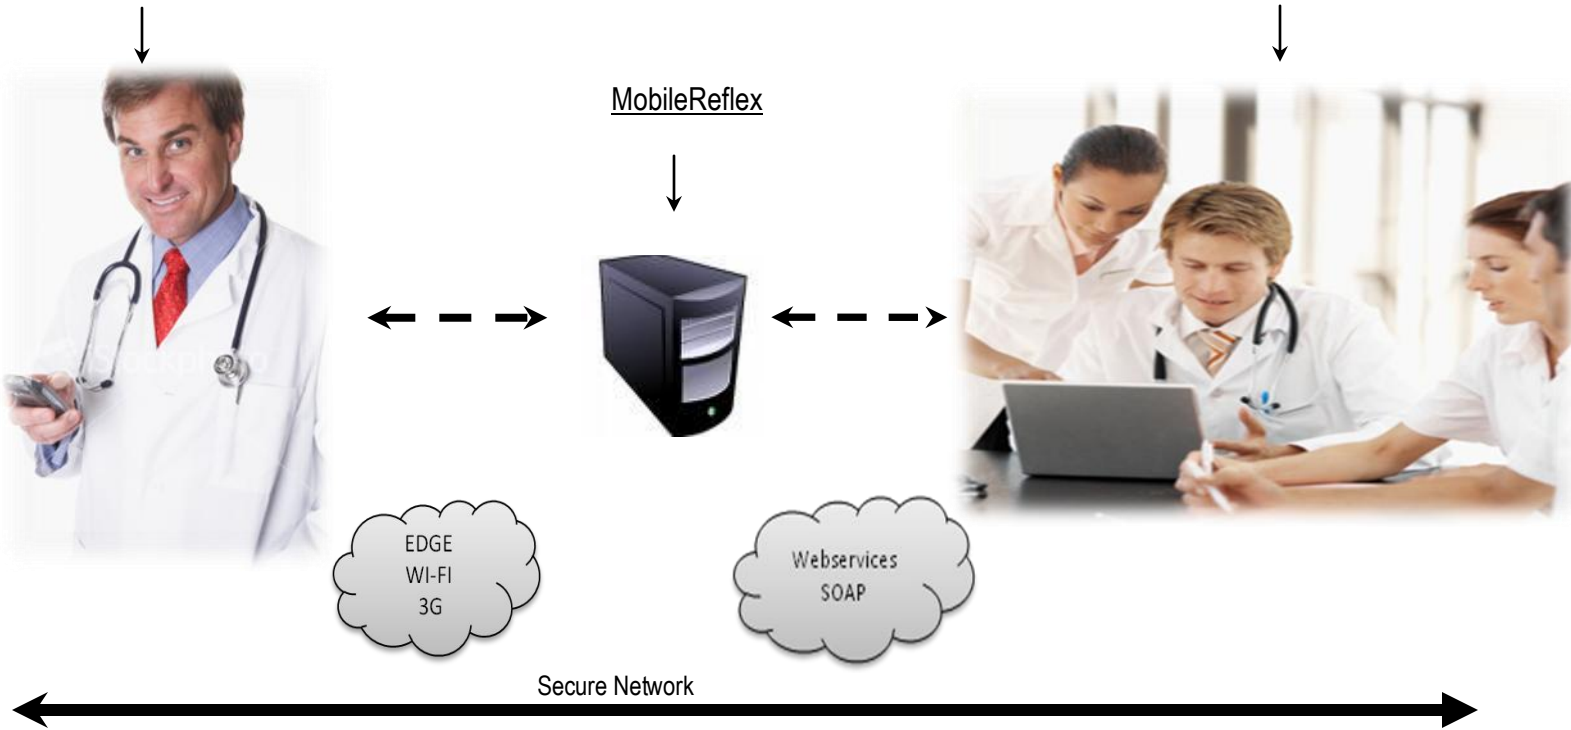

With MobileReflex, you can offer mobile solutions that give Healthcare Professionals the ability to access critical medical data on a mobile device anywhere they have a cell phone connection.

MobileReflex is flexible, adaptable and cost-effective.

What can MobileReflex do for you!!

Your Software Solution Package on
Smartphone - BlackBerry, iPhone,
Windows Mobile

Your Healthcare Software Solution Package- EHR,
EMR, Billing Management, Practice Management

“Whatever your business model is, Karya can ensure a secure enterprise mobility solution empowering your business to scale newer heights.”

By providing this type of anytime, anywhere access, your solutions can greatly increase patient safety, improve communication among caregivers and mitigate risk for hospitals, doctors and patients.

- ▶ Stay ahead of your competitors
- ▶ Enhance Customer Satisfaction
- ▶ Showcases your efficiency and care in the world of mobility
- ▶ Increase your recognition in Software Solution field
- ▶ Reduce cost & Enhance Profitability
